Catching Cold - Breakthrough Lem Moyé, M.D.,
Ph.D. Four years ago, in the pre-COVID era...
Doctor Jon DeLeon, an inspired scientist
plagued by emotional addictions, believes
that he can cure the common cold. His motley
group of eccentric and intense scientists
under the name CiliCold stumble, fight, and

work together to test Jon's hypothesis. These efforts lead to repeated failure, and their support team becomes disillusioned by the repeated difficulties. Attorneys Jasper Giles and Cassie Rhodes, ruthless defenders of the SSS Pharmaceutical Company, learn of Dr. DeLeon's ideas through the brutal deposition of CiliCold's ex-accountant. Intrigued by the promise of Jon's work, they infiltrate the company to learn that Jon's imminent emotional collapse and financial ruin blind him to the crippling assault the lawyers are prepared to unleash. Only the final staggering observation of Jon and his team, together with the dogged resistance of another takeover target of SSS, can possibly preserve the finding of overwhelming scientific significance for which no one is prepared.

When President F.W. de Klerk announced the unbanning of the liberation movements on 2 February 1990, he opened the door to negotiations that would end apartheid and pave the way to democracy. But how did this moment come about? What power struggles and secret talks had brought the country to this point? Written by two ANC veterans who were

Get Free Breakthru Vol 1

close to these events, Breakthrough sheds new light on the process that led to the formal negotiations. Focusing on the years before 1990, the book reveals the skirmishes that took place away from the public glare, as the principal adversaries engaged in a battle of positions that carved a pathway to the negotiating table. Drawing from material in the prison files of Nelson Mandela, minutes of the meetings of the ANC Constitutional Committee, the NWC and the NEC, notes about the Mells Park talks led by Professor Willie Esterhuysen and Thabo Mbeki, communications between Oliver Tambo and Operation Vula, the Kobie Coetsee Papers, the Broederbond archives and numerous other sources, the authors have pieced together a definitive account of these historic developments. While most accounts of South Africa's transition deal with what happened during the formal negotiations, Breakthrough demonstrates that an account of how the opposing parties reached the negotiating table in the first place is indispensable for an understanding of how South Africa broke free from a spiralling war and began the journey to democracy.

Some six decades of socialisation by the ruling People's Action Party (PAP) has ingrained in a majority of Singaporeans the instinct that it is not unusual to give up certain personal liberties for the greater good as long as the PAP State ensures the

Get Free Breakthru Vol 1

material well-being of Singaporeans. The general election of 2020 (GE2020) during the COVID-19 pandemic, put this social compact between the people and the State to the test. Significant job losses, wage cuts, and an erosion of personal wealth – due to measures to counter the pandemic – cut substantially into the PAP popular vote nationally, and resulted in an unprecedented 10 candidates from the opposition Workers' Party (WP) being elected to Parliament. GE2020 confirmed the trend from GE2011, when the WP first made a breakthrough, that Singaporeans will only accept a party in moderate opposition to the PAP. This narrative differs markedly from conventional wisdom. Breakthrough 2.0 explores the aforementioned phenomena. The book analyses critically the issues surrounding parliamentary elections in Singapore. It also focuses on issues not explored by many other observers, namely voter psychology; election processes; and, party branding. A comparative analysis of election practices and processes in other jurisdictions is also employed to determine where parallels can or cannot be drawn with the situation in Singapore. The author has had direct access to personalities across the political parties. Consequently, he utilises primary sources, supported by evidence, in sketching out backstories to events which exposes certain myths that were prevailing in social media in the months running up to GE2020.

Between the 1960s and the 1980s, the human rights movement achieved unprecedented global prominence. Amnesty International attained striking visibility with its Campaign Against Torture; Soviet dissidents attracted a worldwide audience for their heroism in facing down a totalitarian state; the Helsinki Accords were signed, incorporating a "third basket" of human rights principles; and the Carter administration formally gave the United States a human rights policy. The Breakthrough is the first collection to examine this decisive era as a whole, tracing key developments in both Western and non-Western engagement with human rights and placing new emphasis on the role of human rights in the international history of the past century. Bringing together original essays from some of the field's leading scholars, this volume not only explores the transnational histories of international and nongovernmental human rights organizations but also analyzes the complex interplay between gender, sociology, and ideology in the making of human rights politics at the local level. Detailed case studies illuminate how a number of local movements—from the 1975 World Congress of Women in East Berlin, to antiapartheid activism in Britain, to protests in Latin America—affected international human rights discourse in the era as well as the ways these moments continue to influence current understanding of human rights history and advocacy. The

global south—an area not usually treated as a scene of human rights politics—is also spotlighted in groundbreaking chapters on Biafran, South American, and Indonesian developments. In recovering the remarkable presence of global human rights talk and practice in the 1970s, *The Breakthrough* brings this pivotal decade to the forefront of contemporary scholarly debate.
