Every year, the Bibliography catalogues the most important new publications, historiographical monographs, and journal articles throughout the world, extending from prehistory and ancient history to the most recent contemporary historical studies. Within the systematic classification according to epoch, region, and historical discipline, works are also listed according to author's name and characteristic keywords in their title.

Catherine McIntyre, like many fine artists, created traditional art for decades before encountering the verzaatility of digital imaging technology. Free of her Retring pens and scalpel, she now uses Photoshop to create her montages. Visual Alchemy explores McIntyre's sources of inspiration as well as her methods, offering an aesthetic guide to composition, color, texture and all of the other means of communication that artists have at their disposal. While these concepts and techniques make use of Photoshop, they will apply to any digital imaging program and indeed to any medium, whether traditional or digital. Featuring McIntyre's own art as well as that of artists around the globe, Visual Alchemy is an invitation to discover the artistic possibilities of picture making through digital montage.

"It's hard to see how anyone is ever going to better this User's Manual to the life of Georges Perec" - Gilbert Adair, Sunday Times Winner of the Prix Goncourt for Biography, 1994 George Perec (1936-82) was one of the most significant European writers of the twentieth century and undoubtedly the most versatile and innovative writer of his generation. David Bellos's comprehensive biography - which also provides the first full survey of Perec's irreverent, polymathic oeuvre - explores the life of an anguished, comical and endearingly modest man, who worked quietly as an archivist in a medical research library. The French son of Jewish immigrants from Poland, he remained haunted all of his life by his father's death in the war, fighting to defend France, and his mother's in Auschwitz-Birkenau. His acclaimed novel A Void (1969) - written without using the letter "e" - has been seen as an attempt to escape from the words "père", "mere", and even "George Perec". His career made an auspicious start with Things: A Story of the Sixties (1965), which won the Prix Renaudot. He then pursued an idiosyncratic and ambitious literary itinerary through the intellectual ferment of Paris in the 1960s and 1970s.He belonged to the Ouvrior de Littérature Potentielle (Oulipo), a radically inventive group of writers whose members included Raymond Queneau and Italo Calvino. Perec achieved international celebrity with Life A User's Manual (1978), which won the Prix Médicis and was voted Novel of the Decade by the Salon du Livre. He died in his mid-forties after a short illness, leaving a truly puzzling detective novel, 83 Days, incomplete. *Professor Bellos's book enables us at once to relish the most wilfully bizarre aspects of Perec's oeuvre and to understand the whys and wherefores of his protean nature* - Jonathan Romney, Literary Review

Social sciences and economics have undergone enormous progress. While certain topics have been fully researched, others have remained largely under-researched or ignored. It is this discrepancy which prompted the research paradigm of "Crossing Bridges". For this volume, ten authors have joined forces to address the problem of under-researched topics, focusing in particular on gaps in interdisciplinary research between economics and other social sciences.

Le nu féminin est, avec la corrida et le paysage de la Camargue et des déserts américains, le thème favori de Lucien Clergue. Son livre " Née de la vague " (épuisé depuis longtemps) est une des références internationales dans ce domaine. Grands Nus, reprend une sélection de ses plus beaux nus et comporte de nombreuses " beautés " inédites. C'est " le " livre que l'ensemble des aficionados de Clergue et du nu lui demandaient depuis des années.
