Hot Mustang and co... 4 NM Mass Roman de 468 000 caractères, 83 100 mots, le livre papier fait 312 pages. Si l'amour se trouvait à tous les coins de rue, ça se saurait, non ? C'est ce que se dit Pulp du MC des Hot Mustang. Pas que sa vie actuelle lui déplaît, non, il a un bon boulot qu'il a choisi et qu'il apprécie, des frères au club qu'il considère comme sa famille, sans compter toutes ses connaissances et sa popularité. Mais il a aussi un complexe qu'il a toujours tenté de dissimuler derrière son humour, son arrogance et ses poings. Et il est persuadé que ce complexe est la raison pour laquelle il est encore seul à 38 ans. Jusqu'à une certaine soirée où il va rencontrer... Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

By the time the 1969 model year rolled around, it was well established that muscle cars were fast and plentiful. Every manufacturer had at least one corner of the showroom where the "go fast" guys could congregate and discuss the merits and time slips of the latest performance offerings. Competition being what it was, the manufacturers were looking for ways to entice potential buyers to choose their product over ever-increasing offerings from the competition. Some manufacturers tried to accomplish this with affordable prices, some tried fancy marketing schemes, and some created a look and a style that screamed "performance" even when standing still. The 1969 Mach I was Ford's attempt to create a package and a style to match the performance of its recently released and very potent 428-ci Cobra Jet engine package. Displacing the still-available but more conservative GT trim, the Mach I included unique and innovative graphics and mechanical innovations including shaker hood scoops, dual racing mirrors, deluxe interiors, competition suspension, dual chrome exhaust tips, and blacked-out hoods. The result was a wildly popular model that sold more than 70,000 units, compared to slightly more than 5,000 GT models for the year. Each volume in the In Detail Series provides an introduction and historical overview, an explanation of the design and concepts involved in creating the car, a look at marketing and promotion, an in-depth study of all hardware and available options, and an examination of where the car is on the market today. Also included are paint and option codes, VIN and build tag decoders, as well as production numbers.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Mustang memorabilia abounds in this all-color look at the collectible treasures used over the years to promote America's favorite pony car. Contains a beneficial price and value guide for hard-core collectors.

Introduce readers to the Ford Mustang, which was unveiled at the 1964 New York World's Fair. In its first two years of production, the four-seat sports car sold more than 1 million cars. The Mustang was a new class of car, the pony car. Other American automobile manufacturers copied Ford's design and specifications, but Ford has always been the company to do the pony car the best. Now in its sixth generation, the Mustang comes in a variety of packages, ranging from the standard V6 GT to the high-performance GT350R, for all types of car enthusiasts. Stunning photographs support this fascinating story.
