LG PH450UG Minibeam Projector review | TechRadar

When you upload the original patent template, it's in one of the supported file types and in plain text. DLP converts this word pattern into a document fingerprint, which is a small Unicode XML file containing a unique hash value representing the original text, and the fingerprint is saved as a data classification in Active Directory.

Document Fingerprinting - Microsoft 365 Compliance ...

What is DLP. Data Loss Prevention (DLP) is the practice of detecting and preventing data breaches, exfiltration, or unwanted destruction of sensitive data. Organizations use DLP to protect and secure their data and comply with regulations. The DLP term refers to defending organizations against both data loss and data leakage prevention.
