New Portable Drones 2018 Autel

January 11, 2018 At CES 2018, Autel Robotics USA announced its new flagship aircraft line, the EVO. EVO is a portable camera drone with foldable arms and a sleek, compact form factor. We're incredibly excited about this product, and after showing it off at CES, are eager to get it out into the wild for our customers to enjoy.

Autel Robotics Announces New Aircraft EVO at CES 2018 ...

Just as GoPro announces the end of its participation in the consumer drone market, Autel Robotics, a Washington State-based drone manufacturer has introduced its new foldable drone called the EVO, seemingly taking GoPro Karma's place in the DJI-dominated consumer drone marketplace. In keeping with recent drone designs from its competitors, Autel Robotics' EVO features foldable arms that make the drone easy to carry with you wherever you go.

Autel Robotics Adds the New Portable EVO to Its Drone Lineup

At CES 2018, Autel Robotics USA announced its new flagship aircraft line, the EVO. EVO is a portable camera drone with foldable arms and a sleek, compact form factor. We're incredibly excited about this product, and after showing it off at CES, are eager to get it out into the wild for our customers to enjoy.

The folding DJI Mavic Pro may have just lost a competitor, but another company is bringing a new portable drone to the market – the Autel EVO. The recently announced EVO drone sports a 4K 60 fps camera mounted on a compact drone with a 30-minute battery life rating. While 4K may be increasingly common,...

The Autel EVO packages 60 fps 4K video in a compact ...

The Autel Evo is being offered at \$999. It claims a much longer range than the Parrot model and is probably more comparable to the DJI Mavic Pro. Autel has gained a small following among those who want a reliable camera drone, but for whatever reason don't want to buy DJI equipment. Auto Evo Folded and Unfolded

New Consumer Drones for Summer 2018, Parrot, Autel and DJI ...

One hundred Intel Shooting Star Mini drones have been added to a brand-new finale scene. A short video of which you can see below. Intel tells us that the drone performance will be Intel's longest running indoor drone light show with more than 200 performances between November 9th and January 1, 2019, as part of the Christmas Spectacular.

Intel drones light up the Christmas Spectacular show in NY ...

I'm sure Mavic 2 or whatever DJI calls their next portable drone, will have at least the same features. Autel will certainly beat DJI to getting their craft on the market. I'm not impressed with my Mavic's camera quality. Takes too much tweaking when I just want to fly and get a nice shot.

Announcements | Autel Robotics

It's described as a backup on-set solution (BOSS), and is designed to work with a companion Copilot BOSS app to allow users to review their drone footage on a smartphone or tablet, negating a separate laptop. The device is expected in the first half of 2018 with a US retail price of \$350. Head to the official website for more.

CES 2018: Year of the Drone? | Digital Camera World

Autel showed off their all new drone Evo, which was a 4K 60 fps foldable quadcopter at CES in January 2018. The Evo drone was expected to give tough competition to the DJI Mavic Pro . While many experts were of the opinion that Evo is not the best in any way, its features would definitely have given a stiff competition to DJI.

Autel's Portable Drone Evo – Will it be a Competitor to ...

It's been a long time coming but finally, but USA drone maker Autel Robotics have announced a date for the release of their answer to the popular consumer drone DJI Mavic Pro – and it's in less than two weeks. The EVO, as it is known, was first introduced earlier this year at CES2018, where it was met with much anticipation.
