Medical Students Saif S R

1. This book is written by Major (R) Dr. Saif ud din Saif (M.B;B.S, Master of Public Health - MPH, RMP, RHMP, Professor of Community Medicine) who is qualified in the fields of Allopathic, Homoeopathic and Radiesthesia / Radionics systems of medicine. 2. This book has been especially designed and compiled for the Undergraduate Medical Students, the Internee Officers, the Postgraduate Students and the Pharmacy students. 3. This book is designed to provide a complete comprehensive, current and quick information about the various drug classes and their doses. The classification

File Type PDF Pharmacology Review

Medical Students Saif S R

of various drug groups have been given according to the following characteristics: - (a) Chemical Composition (b) Mechanism of Action (c) Duration of Action (d) Site of Action in the human body (e) Therapeutic Classification (f) Solubility of the drugs (g) Selectivity of the drugs (h) Agnostic Action (i) Antagonistic Action (j) Mode of Usage: Systematic or Topical.

The book provides high yield information in basic

File Type PDF Pharmacology Review

Medical Students Saif S R

ophthalmology including anatomy, physiology, pathology, pharmacology, microbiology, and embryology that are required for preparation of ophthalmology exams. The book focusses on all parts of the eye, with special focus on basic science including appropriate amount of information on clinical science for students and trainees. It is written in a lucid manner with textual notes and illustrations for quick learning and better understanding. Each section contains high yield information in separate points, with commonly asked information in Eye Yield Note boxes. It also includes estimated study time for each section to better plan the study. It also includes a pre-exam night study section at the end of the book that provides the

File Type PDF Pharmacology Review Medical Students Saif S R

information to be reviewed just before the exam. The book will be very helpful in passing almost all basic ophthalmology exams in a relatively short study time, by skipping the filling text available in most of the textbooks. It will be an excellent read for post graduate students looking for concise revision material. It will be relevant for medical students, ophthalmology residents, and medical doctors applying for ophthalmology residency and also for FRCS Part 1 exam.
