The Fifth Edition contains more than 25 notes about statutory interpretation, reflecting that tax law is an ideal vehicle for statutory interpretation. The materials also convey two key points about the legislative process as it pertains to tax law: (a) tax law is not static, but is ever changing; and (b) tax law is strongly influenced by special interest group pressures on our legislative body. The name change for the book reflects the addition of Part II which allows professors to expand an introductory course to include survey materials on taxes other than the federal income tax. The fourth edition of a popular guide to the key issues in tax reform, discussing the current system and alternative proposals clearly and without a political agenda. As Albert Einstein may or may not have said, "The hardest thing in the world to understand is the income tax."

Indeed, to follow the debate over tax reform, the interested citizen is forced to choose between misleading sound bites and academic treatises. *Taxing Ourselves* bridges the gap between the two by discussing the key issues clearly and without a political agenda: Should the federal income tax be replaced with a flat tax or sales tax? Should it be left in place and reformed? Can tax cuts stimulate the economy, or will higher deficits undermine any economic benefit?

The fourth edition of this popular guide has been extensively revised to incorporate the latest information, covering such recent developments as the Bush administration's tax cuts (which expire in 2011) and the alternatives proposed by the President's Advisory Panel on Federal Tax Reform. Slemrod and Bakija provide us with the knowledge and the tools—including an invaluable voter's guide to the tax
