Ten theories of counselling are presented in this volume, aimed to help students develop a personalised style of counselling. There are chapters on psychoanalytic, Adlerian, existential, person-centred, Gestalt, behaviour and family systems therapy.

Incorporating the thinking, feeling, and behaving dimensions of human experience, the tenth edition of Corey's best-selling book helps students compare and contrast the therapeutic models expressed in counseling theories. With his trademark style, he shows students how to apply those theories in practice, and helps them learn to integrate the theories into an individualized counseling style.
