Who would ever imagine that an eighteen-year-old who began his career teaching thirty-two eight-year-olds in a state school in an insignificant city in the remote South Pacific would end up on the world stage as the writer of definitive technical volumes in the field of biblical studies and as the only scholar from Australia/New Zealand on the Committee on Bible Translation that produced the New International Version? This autobiography is the account of the surprising stages that led Murray Harris from his humble beginnings to ending his teaching career as a professor emeritus at a leading United States theological institution. These stages are here attributed to the gracious guiding hand of a God who delights in providing serendipities while achieving his purposes. All this is recorded with humor and with many photos and illustrations.

Professor Leif Hansen, a wealthy Danish botanist, builds a pioneer ecovillage for scientists to begin research into lichen that could one day produce oxygen on Mars for future space missions. NASA agrees to help with the project and finds a suitable location for his research in Namibia, South West Africa, where he and his fellow ecovillagers can research permaculture, eco-living, and getting back in touch with Mother Nature. Unknown to him a cabal founded by surviving Nazis are planning World War Three and some of their members plan to take it by force as a haven. As the nuclear holocaust threatens their existence, the villagers resort to extreme measures to defend their precious oasis in the desert that they have strived for years to build, while battling both local militia and mercenaries. But what if the green revolution isn't what we think it is?

We all have gone through rough patches in life: -Losing the dream job. -A relationship that went sideways. -The death of a loved one. -An investment tanking. When bad things happen in life, you can either let it define you or let it launch you. The choice is up to you! Speed Bumps are a part of life. We have all experienced them at one point, or many points, in our journey. So, how can you use your speed bumps to launch you into the life you were meant to life? Renown artist, Noah Elias, shares his story in Speed Bumps. You will see the good, the bad, and the ugly. More importantly, you will see how Noah took life's challenges and used them to launch into his sweet spot. Speed Bumps will also reveal the importance of having people in your life's journey that challenge you to launch. Through seeing the lessons that Noah learned because of his speed bumps, you too will learn how to launch into living in your sweet spot; and make the most out of your life!

A brilliant satire of mass culture and the numbing effects of technology, White Noise tells the story of Jack Gladney, a teacher of Hitler studies at a liberal arts college in Middle America. Jack and his fourth wife, Babette, bound by their love, fear of death, and four ultramodern offspring, navigate the rocky passages of family life to the background babble of brand-name consumerism. Then a lethal black chemical cloud, unleashed by an industrial accident, floats over there lives, an "airborne toxic event" that is a more urgent and visible version of the white noise engulfing the Gladneys—the radio transmissions, sirens, microwaves, and TV murmurings that constitute the music of American magic and dread.

Covers all U.S. and Canadian models of Toyota Camry, Avalon, Solara and Lexus ES 300/330 models.

Standup comic, actor and fan favorite from HBO's Silicon Valley and the film Crazy Rich Asians shares his memoir of growing up as a Chinese immigrant in California and making it in Hollywood. "I turned down a job in finance to pursue a career in stand-up comedy. My dad thought I was crazy. But I figured it was better to disappoint my parents for a few years than to disappoint myself for the rest of my life. I had to disappoint them in order to pursue what I loved. That was the only way to have my Chinese turnip cake and eat an American apple pie too." Jimmy O. Yang is a standup comedian, film and TV actor and fan favorite as the character Jian Yang from the popular HBO series Silicon Valley. In How to American, he shares his story of growing up as a Chinese immigrant who pursued a Hollywood career against the wishes of his parents: Yang arrived in Los Angeles from Hong Kong at age 13, learned English by watching BET RapCity for three hours a day, and worked as a strip club DJ while pursuing his comedy career. He chronicles a near deportation episode during a college trip Tijuana to finally becoming a proud US citizen ten years later. Featuring those and many other hilarious stories, while sharing some hard-earned lessons, How to American mocks stereotypes while offering tongue in cheek advice on pursuing the American dreams of fame, fortune, and strippers.

This smart, “riveting” (Los Angeles Times) history of the Internet free culture movement and its larger effects on society—and the life and shocking suicide of Aaron Swartz, a founding developer of Reddit and Creative Commons—written by Slate correspondent Justin Peters “captures Swartz flawlessly” (The New York Times Book Review). Aaron Swartz was a zealous young advocate for the free exchange of information and creative content online. He committed suicide in 2013 after being indicted by the government for illegally downloading millions of academic articles from a nonprofit online database. From the age of fifteen, when Swartz, a computer prodigy, worked with Lawrence Lessig to launch Creative Commons, to his years as a fighter for copyright reform and open information, to his work leading the protests against the Stop Online Piracy Act (SOPA), to his posthumous status as a cultural icon, Swartz’s life was inextricably connected to the free culture movement. Now Justin Peters examines Swartz’s life in the context of 200 years of struggle over the control of information. In vivid, accessible prose, The Idealist situates Swartz in the context of other “data moralists” past and present, from lexicographer Noah Webster to ebook pioneer Michael Hart to NSA whistleblower Edward Snowden. In the process, the book explores the history of copyright statutes and the public domain; examines archivists’ ongoing quest to build the “library of the future”; and charts the rise of open access, the copyleft movement, and other ideologies that have come to challenge protectionist intellectual property policies. Peters also breaks down the government’s case against Swartz and explains how we reached the point where federally funded academic research came to be considered private property, and downloading that material in bulk came to be considered a federal crime. The Idealist is “an excellent survey of the intellectual property battlefield, and a sobering memorial to its most tragic victim” (The Boston Globe) and an essential look at the impact of the free culture movement on our daily lives and on generations to come.

A team of Microsoft insiders shows programmers how to use Visual Studio 2005 Team System, the new suite of products from Microsoft that can be used for software modeling, design, testing, and deployment Focuses on practical application of the tools on code samples, development scenarios, and automation scripting This timely book serves as both as a step-by-step guide and as a reference for modeling, designing, and coordinating enterprise solutions at every level using Team System The book begins with an overview of Team System and then offers nuts-and-bolts guidance on practical implementation Code examples are provided in both VB.NET and C#

Building a Business from Your Creative Work Is Like Living in a Whirlwind. The Good News Is, You Can Harness that Energy and Learn How to Thrive.Try to draw a sketch while sitting on a boat surrounded by a tornado? and you will understand the nausea-inducing experience of attempting to produce your best creative work while managing the dynamics of life. Written by master airbrush artist Noah Elias, 31 Disciplines of Highly Successful Creatives is a collection of insightful, down-to-earth meditations on how to overcome the unrelenting challenges that creatives face on the journey to success and significance. As an entrepreneur who built his business from the ground up, Noah has worked with the likes of Disney, Lucasfilm, Universal Pictures, Microsoft, Toyota, Costco, and other major brands. This accessible book is full of gems from 30 years of artistic triumphs and lessons learned, a treasure trove of inspiration and guidance that you will want to reference again and again.
